

Hynix 4GB DDR3L 12800S 1RX8 Laptop RAM (OEM)

Product Specification

|                     |                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------|
| Brand               | Hynix                                                                                                         |
| Model               | HMT451S6BFR8A                                                                                                 |
| Type                | DDR3L RAM                                                                                                     |
| Capacity            | 4GB                                                                                                           |
| Speed               | 12800                                                                                                         |
| Module Type         | SDRAM DIMM                                                                                                    |
| Power Supply        | 1.35V                                                                                                         |
| Suitable            | Laptop                                                                                                        |
| Additional Features | Backward Compatible with 1.5V DDR3 Memory module   8 internal banks   Bi-directional Differential Data Strobe |
